

ABDILLAH NUR

Web Developer in HTML, CSS & JavaScript

ABOUT

I'm a frontend web developer with a lifelong passion for the tech industry.

I predominantly work with HTML, CSS and JavaScript, as well as tailwindcss, but my skill set is always expanding.

The most recent library I have started learning is React js.

I'm an extremely hardworking, diligent and determined individual who has excellent problem solving skills, thinks creatively, works well within a team and thrives on new challenges.

EXPERIENCE

Work Experience - *Fakir Pharmacy*

During this work experience I helped the patients with their medicine and supported the Pharmacists. This helped me increase my patience and team working skills.

Teacher - *Iqra Daycare And Tuition Centre*

At Iqra tuition center I was blessed to teach years 5, 6 and 7. This job drastically improved my teaching and management skills, as these year groups are very active.
